Author Index for Volume 3
Numbers 1-6

AZARASHVILY, T. S. *Binding of Calcium Ions with Mitochondrial ATPase Preparations* 463

AZZONE, Giovanni Felice. *Oxidative Phosphorylation, A History of Unsuccessful Attempts: Is it Only an Experimental Problem?* . . 95

BASKIN, R. J. *Surface Charge and Calcium Binding in Sarcoplasmic Reticulum Membranes* 249

BEZLEPKIN, V. *Binding of Calcium Ions with Mitochondrial ATPase Preparations* 463

BORISOV, A. Yu. *Energy Transfer in Bacterial Photosynthesis. (i) Light Intensity Dependences of Fluorescence Lifetimes* 211

BORISOV, A. Yu. *Energy Transfer to the Reaction Centres in Bacterial Photosynthesis. (ii) Bacteriochlorophyll Fluorescence Lifetimes and Quantum Yields for Some Purple Bacteria* . . . 515

BRUSKOV, V. I. *Binding of Calcium Ions with Mitochondrial ATPase Preparations* 463

CALDERÓN, Esthela. *Accumulation of Calcium and Phosphate Stimulated by Carboxylic Antibiotics into Mitochondria* . . . 361

CÁRABEZ, Alfonso. *Specific Inhibition by Macrocyclic Polyethers of Mitochondrial-Electron Transport at Site I* 429

CELLARIUS, Richard A. *Photosynthetic Membrane Development in* Rhodopseudomonas spheroides. *(ii) Correlation of Pigment. Incorporation with Morphological Aspects of Thylakoid Formation* . 345

CHÁVEZ, E. *On the Locus of Action of Na^+ at Site I of Oxidative Phosphorylation* 221

DAVIDOFF, Frank. *Effects of Guanidine Derivatives on Mitochondrial Function. (iv) Changes in Citric Acid Cycle Intermediates and NADH* 481

de SOUSA, Joaquim Tavares. *Thiophosphate as a Probe for Mitochondrial Oxidative Phosphorylation, Model Phosphorylation Reactions and Membrane Permeability* 539

des CESPEDES, Carlos. *Accumulation of Calcium and Phosphate Stimulated by Carboxylic Antibiotics into Mitochondria* . . . 361

DIMINO, M. J. *Maintenance of Respiratory Control in Mitochondria after Rate Zonal Centrifugation* 525

DONSTOV, A. E. *A Study on the Mechanism of Energy Coupling in the Redox Chain. (i) Transhydrogenase: the Fourth Site of the Redox Chain Energy Coupling.* 277
DROBYSHEV, V. I. *Nucleotides of Beef Heart Mitochondria and Submitochrondrial Particles* 499
ELEY, D. D. *Microwave Charge Carrier Hall Mobility Measurements on Cytochrome-Oxidase Prepared from Heavy Beef Heart Mitochondria* 271
ESTRADA-O, Sergio. *Accumulation of Calcium and Phosphate Stimulated by Carboxylic Antibiotics into Mitochondria* . . . 361
ESTRADA-O, Sergio. *Variability of the K^+-Na^+Discrimination of Beauvericin in Mitochondrial Membranes* 417
ESTRADA-O, Sergio. *Specific Inhibition by Macrocyclic Polyethers of Mitochondrial Electron Transport at Site I* 429
EVANS, J. R. N. *Apparent Compensation in the Electrical Conductivity of Polycrystalline Isocytosine* 245
EVTODIENKO, Yu. V. *Binding of Calcium Ions with Mitochondrial ATPase Preparations* 463
GODIK, V. I. *Energy Transfer in Bacterial Photosynthesis. (i) Light Intensity Dependences of Fluorescence Lifetimes* 211
GODIK, V. I. *Energy Transfer to the Reaction Centres in Bacterial Photosynthesis. (ii) Bacteriochlorophyll Fluorescence Lifetimes and Quantum Yields for Some Purple Bacteria* 515
GÓMEZ-LOJERO, C. *Variability of the K^+-Na^+ Discrimination of Beauvericin in Mitochondrial Membranes* 417
GÓMEZ-PUYOU, A. *On the Locus of Action of Na^+ at Site I of Oxidative Phosphorylation* 221
GÓMEZ-PUYOU, M. Tuena de. *On the Locus of Action of Na^+ at Site I of Oxidative Phosphorylation* 221
GREEN, David E. *The Electromechanochemical Model of Mitochondrial Structure and Function* 159
GREEN, David E. *Conformational Changes in Membranous Preparations of Cytochrome Oxidase* 339
GREEN, David E. *Collapse and Extension of the Headpiece-Stalk Projections in Mitochondrial Electron Transport Particles* . . . 509
GRINIUS, L. L. *A Study on the Mechanism of Energy Coupling in the Redox Chain. (i) Transhydrogenase: the Fourth Site of the Redox Chain Energy Coupling* 277
GUERRIERI, F. *Action of Local Anaesthetics on Passive and Energy-Linked Ion Translocation in the Inner Mitochondrial Membrane* 553
HALLETT, Mark. *Bioenergetics of Nerve Excitation* 65
HANSTEIN, W. G. *On Energy Conservation and Transfer in Mitochondria* 129

HATASE, Osamu. *Conformational Changes in Membranous Preparations of Cytochrome Oxidase* 339
HATASE, Osamu. *Collapse and Extension of the Headpiece-Stalk Projections in Mitochondrial Electron Transport Particles* . . . 509
HATEFI, Y. *On Energy Conservation and Transfer in Mitochondria* . 129
HAYASHI, Hideo. *Conformational Changes in Membranous Preparations of Cytochrome Oxidase* 339
HAYASHI, Hideo. *Collapse and Extension of the Headpiece-Stalk Projections in Mitochondrial Electron Transport Particles* . . . 509
HOCH, F. L. *Maintenance of Respiratory Control in Mitochondria after Rate Zonal Centrifugation* 525
JASAITIS, A. A. *A Study on the Mechanism of Energy Coupling in the Redox Chain. (i) Transhydrogenase: the Fourth Site of the Redox Chain Energy Coupling* 277
JASAITIS, A. A. *A Study on the Mechanism of Energy Coupling in the Redox Chain. (ii) ATP-Supported Generation of Membrane Potential in the Respiratory Chain-Deficient Submitochondrial Particles* 387
JI, Sungchul. *The Electromechanochemical Model of Mitochondrial Structure and Function* 159
KORMAN, Ephraim F. *ATP Synthesis in Oxidative Phosphorylation: A Direct-Union Stereochemical Reaction Mechanism* 147
KULAEV, I. S. *Nucleotides of Beef Heart Mitochondria and Submitochondrial Particles* 499
LEIKIN, Jury N. *Fluorescence of Nicotinamide Adenine Dinucleotides during the Active Transport of Ca^{2+} Ions in Liver Mitochondria* 203
LEWIS, T. J. *Apparent Compensation in the Electrical Conductivity of Polycrystalline Isocytosine* 245
LINNANE, A. W. *Headpiece-Stalk Particles Lining Membranes of Mitochondria Isolated from Normal Oligomycin-Resistant Mutants of* Saccharomyces Cerevisiae 235
LORUSSO, M. *Action of Local Anaesthetics on Passive and Energy-Linked Ion Translocation in the Inner Mitochondrial Membrane* 553
LYONS, James M. *The Induction of Energized Configurational Changes in Plant Mitochondria,* in vivo 531
MANSUROVA, S. E. *Nucleotides of Beef Heart Mitochondria and Submitochondrial Particles* 499
MAYER, R. J. *Microwave Charge Carrier Hall Mobility Measurements on Cytochrome-Oxidase Prepared from Heavy Beef Heart Mitochondria* 271
McLICK, Jerome. *ATP Synthesis in Oxidative Phosphorylation: A Direct-Union Stereochemical Reaction Mechanism* 147

MITCHELL, Peter. *Chemiosmotic Coupling in Energy Transduction: A Logical Development of Biochemical Knowledge* 5
MITCHELL, Peter. *Proton-coupled β-Galactoside Translocation in Non-Metabolizing* Escherichia coli 445
MITYAGINA, S. A. *Relationship of Protein Synthesis and Energetics in Mitochondria* 399
MONTAL, M. *Variability of the K^+-Na^+ Discrimination of Beauvericin in Mitochondrial Membranes* 417
MORALES, Manuel F. *Toward a Theory of Muscle Contraction* . . 55
PACKER, Lester. *Functional Organisation of Intermembrane Particles of Mitochondrial Inner Membranes* 115
PACKER, Lester. *Thiophosphate as a Probe for Mitochondrial Oxidative Phosphorylation, Model Phosphorylation Reactions and Membrane Permeability* 539
PALMIERI, F. *Kinetic Study of the Effect of Uncouplers on Substrate Uptake by Rat-liver Mitochondria* 377
PAPA, S. *Action of Local Anaesthetics on Passive and Energy-Linked Ion Translocation in the Inner Mitochondrial Membrane* . . . 553
PETERS, Gerald A. *Photosynthetic Membrane Development in* Rhodopseudomonas spheroides. *(ii) Correlation of Pigment Incorporation with Morphological Aspects of Thylakoid Formation* . 345
PETHIG, R. *Microwave Charge Carrier Hall Mobility Measurements on Cytochrome-Oxidase Prepared from Heavy Beef Heart Mitochondria* 271
PINTO, E. *On the Locus of Action of Na^+ at Site I of Oxidative Phosphorylation* 221
PINUS, H. A. *Relationship of Protein Synthesis and Energetics in Mitochondria* 399
PREZIOSO, G. *Kinetic Study of the Effect of Uncouplers on Substrate Uptake by Rat-liver Mitochondria* 377
QUAGLIARIELLO, E. *Kinetic Study of the Effect of Uncouplers on Substrate Uptake by Rat-liver Mitochondria* 377
RABINOWITZ, Ya. M. *Relationship of Protein Synthesis and Energetics in Mitochondria* 399
RAISON, John K. *The Induction of Energized Configurational Changes in Plant Mitochondria,* in vivo 531
RILEY, Robert K. *The Morphology and Configurational States of Isolated Heavy Beef Heart Mitochondria by the Freeze Fracture Technique* 467
RUTENBERGS, Solveiga A. *Proteins of Cytochrome Oxidase in Fractions Prepared with Deoxycholate from Bovine Heart Submitochondrial Particles* 403
SANDOVAL, F. *On the Locus of Action of Na^+ at Site I of Oxidative Phosphorylation* 221

SCHONBAUM, Gregory R. *Thiophosphate as a Probe for Mitochondrial Oxidative Phosphorylation, Model Phosphorylation Reactions and Membrane Permeability* 539
SENIOR, A. E. *Conformational Changes in Membranous Preparations of Cytochrome Oxidase* 339
SEVERINA, I. I. *A Study on the Mechanism of Energy Coupling in the Redox Chain. (i) Transhydrogenase: the Fourth Site of the Redox Chain Energy Coupling* 277
SEVERINA, I. I. *A Study on the Mechanism of Energy Coupling in the Redox Chain. (ii) ATP-Supported Generation of Membrane Potential in the Respiratory Chain-Deficient Submitochondrial Particles* 387
SIMONE, S. *Action of Local Anaesthetics on Passive and Energy-Linked Ion Translocation in the Inner Mitochondrial Membrane* . 553
SKULACHEV, V. P. *Solution of the Problem of Energy Coupling in Terms of Chemiosmotic Theory* 25
SKULACHEV, V. P. *A Study on the Mechanism of Energy Coupling in the Redox Chain. (i) Transhydrogenase: the Fourth Site of the Redox Chain Energy Coupling* 277
SKULACHEV, V. P. *A Study on the Mechanism of Energy Coupling in the Redox Chain. (ii) ATP-Supported Generation of Membrane Potential in the Respiratory Chain-Deficient Submitochondrial Particles* 387
SKULACHEV, V. P. *Relationship of Protein Synthesis and Energetics in Mitochondria* 399
SMIRNOVA, S. M. *A Study on the Mechanism of Energy Coupling in the Redox Chain. (ii) ATP-Supported Generation of Membrane Potential in the Respiratory Chain-Deficient Submitochondrial Particles* 387
SZENT-GYÖRGYI, Albert. *The Development of Bioenergetics* . . 1
TASAKI, Ichiji. *Bioenergetics of Nerve Excitation* 65
THOMAS, J. M. *Apparent Compensation in the Electrical Conductivity of Polycrystalline Isocytosine* 245
THOMSON, William W. *The Induction of Energized Configurational Changes in Plant Mitochondria,* in vivo 531
TZAGOLOFF, Alexander. *A Model of Membrane Biogenesis* . . . 39
VAIL, William J. *The Morphology and Configurational States of Isolated Heavy Beef Heart Mitochondria by the Freeze Fracture Technique* 467
VINIEGRA-GONZALEZ, Gustavo. *Toward a Theory of Muscle Contraction* 55
VINOGRADOV, Andrei D. *Fluorescence of Nicotinamide Adenine Dinucleotides during the Active Transport of Ca^{2+} Ions in Liver Mitochondria* 203

WAINIO, W. W. *Proteins of Cytochrome Oxidase in Fractions Prepared with Deoxycholate from Bovine Heart Submitochondrial Particles* 403
WAKABAYASHI, Takashi. *Conformational Changes in Membranous Preparations of Cytochrome Oxidase* 339
WAKABAYASHI, Takashi. *Collapse and Extension of the Headpiece-Stalk Projections in Mitochondrial Electron Transport Particles* 509
WANG, Jui H. *On the Coupling of Electron Transport to Phosphorylation* 105
WATSON, K. *Headpiece-Stalk Particles Lining Membranes of Mitochondria Isolated from Normal Oligomycin-Resistant Mutants of* Saccharomyces Cerevisiae 235
WEISS, D. E. *Mitochondrial Oxidative Phosphorylation at Site I Involving a Fatty Aldehyde/Acid Couple* 305
WEST, Ian. *Proton-Coupled β-Galactoside Translocation in Non-Metabolizing* Escherichia coli 445
WILLIAMS, R. J. P. *An Analytical Appraisal of Energy Transduction Mechanisms* 81
WITT, H. T. *Energy Transduction in the Functional Membrane of Photosynthesis: Results by Pulse Spectroscopic Methods* . . . 47
YOUNG, John H. *An Enzymological Approach to Mitochondrial Energy Transduction* 137
